Contents:

The seventh MMP magazine dedicated to the greatest tactical board wargame, the ASL Journal #7 is 48 pages with 12 scenarios, and a new 8"x22" geomorphic mapboard for Advanced Squad Leader (board "v").

What is "board v"? We have recently changed our map style from hardback mounted (like the original Squad Leader maps) to a lightweight mounted map (that we use in our ASL Starter Kits). Realizing everyone may not be aware of the change, we decided to put a map (which will be in ASL Starter Kit #3) into the magazine to "show it off" to more ASLers. We included a scenario which uses the board, *Marders not Martyrs*. This map will be used in the Starter Kit games, but is also fully compatible with ASL. Look for it, and future, Starter Kit maps to be used in ASL scenarios.

Journal #7 contains articles on:

The Blue Devils - Croation Parachute Battalion
Commissar's Dialectic
Got OVHS? Got Milk Scenario Review
Hungry, Hungry, HIPpies
The British in WWII (part 2 of 2)
Feline Off-Board Artillery (FOBA)
