### Description

**Corsair Leader** is the newest game in DVG's Air Leader series!

For the first time, the Air Leader series takes to the skies of WWII! Phantom Leader put you in the SAM filled skies over North Vietnam. Hornet Leader put you in the cockpits of the US Navy's best aircraft from the 1980s to present day. And, Israeli Air Force Leader gave you command over all of Israel's air wars from 1948 to present day.

DVG are proud to break into this new era, and Corsair Leader, and the rich history of the US Navy and Marines is the perfect way to do it. For those of you who are new to the series, **Air Leader** games are entirely solitaire by design. This means you can play whenever, where ever, and for as long as you like. No opponent needed! The game system handles all the enemy decisions and actions for you!

### Mission Briefing:

You begin by choosing a historical US Navy or Marine Campaign. Each Campaign lists the year it took place. The Year is important because that determines the aircraft types you have to choose from to build your squadron, and the types of enemy aircraft you will engage in combat. Next, you select the Pilots and Aircraft to form your Squadron. You are now ready to fly your first Mission!

### Campaigns:

Marines - Wake Island 1941  
Navy - Midway 1942  
Marines - Guadalcanal 1942  
Marines - New Georgia 1943  
Navy - Battle of Leyte Gulf 1944  
Marines - Rabaul 1944

### What's New:

Corsair Leader adds several new features to the Air Leader series!

- Detailed Dogfighting rules! - You'll select a Maneuver, adjust Position, and do your best to shoot down enemy aircraft! The AI uses the same rules for Maneuvering on your Aircraft!
- Enemy Bandit Pilot Skill Levels - Each Enemy Bandit is rated for its Pilot Skill Level from Newbie to Ace. The higher their Skill Level, the higher their ratings. When you shoot down enemy Veterans and Aces, you remove those counters from the Campaign!
- Gung Ho - WWII was all about teamwork and getting the job done. Each of your Pilot's has a Gung Ho skill that you can use to perform heroic actions!
- Naval Sites - We've added an entire set of Naval Site counters for Naval Targets! This gives Naval Targets a completely different feel from land targets!
