Description

Welcome to "Sand & Snow" a themed HASL issue of From the Cellar, which examines two critical battles that the United States Marine Corps fought in WW2 and in Korea. The two battles (Tarawa and Toktong Pass) that this pack looks at could not be more different in geography, weather and enemy capabilities. As an ASL player you will have to adapt to the changing conditions just as the Marines who participated in these battles had to do.

PLEASE NOTE: To play the Tarawa scenarios you will need the map from MMP's Blood Reef Tarawa module, as well as a map extension downloaded from the publisher's webpage.
